

About Oakwood

Oakwood School is a private school that provides a multisensory educational program in which students of average to above average intelligence with mild to moderate learning differences are guided to achieve their unique academic and social potential in a nurturing community environment.

The Oakwood Summer Program combines that same excellent environment with the joys of summer fun as Oakwood teachers help each student maintain and improve critical academic skills while enjoying enrichment and recreational activities with friends!

Our small classes (1:6 Staff-Student ratio) make our program especially beneficial for students with learning differences.
